

PSYCHOLOGY

ASSOCIATE OF APPLIED SCIENCE
61 CREDITS

Psychology, the science of mental processes and behavior, offers a profound understanding of the mind. A degree in Psychology delves into various fascinating aspects, encompassing theories of development, learning, cognition, and behavior. Explore the intricacies of the human mind and unlock a wealth of knowledge!

Our Psychology degree is tailored to facilitate seamless credit transfers from Penn Highlands to any four-year institution offering a bachelor's degree in Psychology or a related field. Rest assured, with a degree from Penn Highlands, you'll possess the essential foundation for thriving in a psychology-related profession.

TRANSFER OPPORTUNITIES

Upon completion of the A.A. degree in Psychology, students will have the opportunity to seamlessly transfer their first two years of study to any of the fourteen four-year universities within the Pennsylvania State System of Higher Education. This allows them to efficiently complete the remaining requirements for their bachelor's degree in just two additional years of full-time study.

KEY COURSES

- Abnormal Psychology
- Human Development Across the Lifespan
- Introduction to Counseling
- Elementary Statistics
- Psychology of Aging
- Contemporary Social Issues

WE ARE ACCREDITED.

Penn Highlands is accredited by the Middle States Commission on Higher Education. This means you will receive the same quality of education as major four-year institutions in our area.

WE ARE FAMILY.

Our supportive staff and faculty are here for you. We are available to listen, offer advice, and provide support to help you succeed. With an 18:1 student-to-faculty ratio, the hands-on support you will receive feels like family.
